These Stainless Steel units have extra large low voltage output terminal and flip down wiring compartment access

GL – Garden Light Series

A landscape lighting transformer with two voltage outputs. 12 and 15 volt taps are provided in 100 and 200 watt sizes. The 15V tap is provided to help reduce voltage drop and increase lamp brilliance.

The stainless steel enclosure is rain-tight indoor/outdoor with removable cover. The cover provides access to plug and go accessories and all wiring. Both units include side wiring access through two 1/2" and 3/4" double knockouts, and one 1-1/4" and 1-1/2" double EKO on a swing down bottom, with an attached 6' line cord.

Features include provision for a plug-in mechanical timer, plug-in electronic remote photocell and field installed photocell option.

- Enclosed Wiring Terminals and Low Voltage Taps of 12 and 15 Volts
- 100 and 200 Watts
- Timer, Photocell, Remote Photocell Option
- The GL Series of Landscape Lighting transformers are designed exclusively to be connected to and power LEDs providing illumination. Use of other bulbs or fixture types will void any and all warranties.

JATTIC NC. THE COLUMN TO SECURITY OF THE CO

GL Transformer Features:

- 100 and 200 Watt Single Circuit output.
- NEMA style rain-tight keyhole mount enclosure, type 304 stainless steel construction.
