**These Stainless Steel units have extra large low voltage output terminals and flip down wiring compartment access**

- Enclosed Wiring Terminals and Low Voltage Taps of 12 and 15 Volts
- 100 and 200 Watts
- Timer, Photocell, Remote Photocell Option

### GL – Garden Light Series

A landscape lighting transformer with **two voltage outputs**. 12 and 15 volt taps are provided in 100 and 200 watt sizes. The 15V tap is provided to help reduce voltage drop and increase lamp brilliance.

The stainless steel enclosure is rain-tight indoor/outdoor with removable cover. The cover provides access to plug and go accessories and all wiring. Both units include side wiring access through two 1/2" and 3/4" double knockouts, and one 1-1/4" and 1-1/2" double EKO on a swing down bottom, with an attached 6' line cord.

Features include provision for a plug-in mechanical timer, plug-in electronic remote photocell and field installed photocell option.

### GL Transformer Features:

- 100 and 200 Watt Single Circuit output.
- NEMA style rain-tight keyhole mount enclosure, type 304 stainless steel construction.
- Wiring compartment with input and output terminals
- Complete wiring instructions
- Timer-ready, 24-hour removable
- Field installed or remote photocell option
- 6' outdoor line cord
- Low voltage circuit breaker.
- **UL Listed using Standard for Safety UL1838 (Link to UL Certification)**
- cUL approved for Canada
- Limited lifetime warranty
- Made in USA. Full compliance with the Buy American provision of the American Recovery and Reinvestment Act of 2009 (ARRA)
